Technical Skill Set

- HTML
- CSS/ Bootstrap/ Materialize
- JavaScript /React /jQuery
- Python/ Django/ Flask
- SQL /PostgeSQL
- Git /Node.js

Projects

During the course, I have worked on several projects that demonstrate what I have learned and the skills that I have acquired here are some of these projects:

- **DBAA:** This project was created for the Code Institute Pride hackathon in June 2022. It is a social networking and events platform for LGBTQ+ users to advertise events and connect with other users, I was one of 4 contributors and we came in second place.

https://dbaa-platform.herokuapp.com/

- **charity Earth:** Charity Earth was created as part of the April 2022 Earth Day Hackathon held by the Code Institute, based on your areas of interest we will suggest a charity that would love a donation of money or voluntary work! I was one of a total of 6 contributors.

https://kera-cudmore.github.io/earth-day-hackathon-2022/

- **Art hub:** A full-stack social app, that includes a Django rest framework custom API for the back end, and React to handle the front end.

https://arthub-react.herokuapp.com

- **Sea Side Restaurant:** This is a full-stack application for a restaurant management system and table booking.

https://github.com/Hijazi-alaa/sea-side-rest

- **Ugarit:** is a web page about an ancient city called Ugarit, I used HTML and CSS to build it.

https://github.com/Hijazi-alaa/Ugarit-site

- **Geography Quiz:** is a web app that let the user answer choice type trivial questions about geography, I used HTML, CSS and Javascript to build it.

https://github.com/Hijazi-alaa/Geography-Trivia-Quiz

- **Rock Paper and Scissors:** this is a terminal-based min game where a user can challenge the computer in a game of rock, paper and scissors, I used Python to build it.

https://github.com/Hijazi-alaa/Rock-paper-scissors

and more to come
